

Hello,

I am writing in concern that more LPFM stations would make me unable to hear the only station to which I listen. K-Love 91.9. I always put it on in the car because I know that all the music, news and comments will be acceptable for my kids to hear. I think this is an important station to be available to our community as most stations in my area play music and the DJ's make comments that are absolutely inappropriate for children to hear. In an area where most of the music heard on radio stations is violent, sexist, sexual, or just plain vulgar, K-Love is something my kids and I enjoy together. We would be sad if this option for decent, family-oriented music were lost. Thank-you for your consideration, Melinda Morishima
